

## Natural Minerals Complex-11

### Low Sodium, Full Spectrum of Essential Minerals

#### Specification Sheet

#### Product Overview

Natural Minerals Complex – 11 is a specialized mineral concentrate designed to provide a complete range of essential minerals for human health. Formulated using our flagship Natural Mineral Complex 110, it serves as an efficient and economical way to remineralize water, making it ideal for applications in the packaged water industry and beyond. Sourced from the Great Salt Lake in Utah, USA, this low-sodium, bioavailable mineral solution enriches water with a balanced mineral profile, resulting in naturally alkaline, great-tasting water.

#### Key Features

- **Complete Mineral Spectrum:** Contains a balanced range of macro and micro nutrients essential for hydration and wellness.
- **Low Sodium Content:** Provides a low-sodium mineral option, suitable for individuals mindful of sodium intake.
- **High Bioavailability:** Formulated to ensure efficient absorption, delivering maximum benefits of each mineral.
- **Cost-Effective Remineralization:** Designed to economically enhance RO and distilled water with a simple addition.

#### Primary Application

1. **Packaged Water Industry:** Our motto is “Adding Life to Water.” By incorporating Natural Minerals Complex – 11, businesses can transform standard RO or purified water into mineral-enriched water with a refreshing, alkaline profile. This enhancement offers customers water that not only tastes better but also provides essential nutrients, setting packaged water brands apart in the marketplace.

**Composition** - Derived from desalinated inland seawater, Natural Minerals Complex – 11 is rich in natural minerals harvested from the Great Salt Lake. The formulation captures a comprehensive range of elements, including trace and ultra-trace minerals, offering a balanced mineral profile that supports hydration and cellular health.

#### Physical Properties

- **Form:** Liquid concentrate
- **Color:** Clear to slightly translucent
- **Taste:** Smooth, mineral-enhanced taste that improves the flavor profile of plain water
- **pH:** Naturally alkaline, supporting an ideal drinking pH level
- **Solubility:** Fully water-soluble, ensuring easy blending without residue

#### Nutritional Information (Approx. Value)

Nutrients	Per 100 ML	Per 1 mL
Chloride	3090 mg	30.90 mg
Magnesium	1133 mg	11.33 mg
Sulphate	231.75 mg	2.32 mg
Sodium	15.56 mg	0.16 mg
Potassium	3.193 mg	0.03 mg
Total Fat	0.00 g	0.00 g
Dietary Fiber	0.00 g	0.00 g
Carbohydrate	0.00 g	0.00 g
Added Sugar	0.00 g	0.00 g
Total Sugar	0.00 g	0.00 g
Protein	0.00 g	0.00 g
Energy	0.00 kcal	0.00 kcal
Saturated Fat	0.00 g	0.00 g
Trans Fat	0.00 g	0.00 g
Cholesterol	0.00 g	0.00 g

**Natural Minerals Complex-11 is not a drug. No approved therapeutic Claims.**

## Available Packaging Options

Natural Minerals Complex – 11 is offered in bulk packaging to meet the needs of various industry sizes:

- 20-liter and 50-liter drums for moderate production scales
- 1000-liter IBC totes for large-scale manufacturing
- Custom packaging options available upon request

### Source and Sustainability

Natural Minerals Complex – 11 is sustainably sourced from the Great Salt Lake, a rich and renewable inland sea. Through an eco-friendly desalination process, we remove excess sodium while preserving a diverse mineral spectrum, aligning with environmentally responsible production practices. This local mineral source significantly reduces carbon emissions associated with traditional mineral water transportation, supporting eco-conscious business practices.

## Benefits for Packaged Water Companies

### Product Overview

- **Premium Differentiation:** Provides an added value in the competitive bottled water market by offering mineral-rich, alkaline water.
- **Simple Integration:** Easily mixes with RO and purified water, enhancing production without significant changes to current processes.
- **Cost-Effective:** By mineralizing water on-site, companies can reduce the need for pre-mineralized water, decreasing logistics and packaging costs.
- **Sustainable Choice:** Reduces environmental impact by eliminating the need for sourcing mineral water bottles, contributing to eco-friendly branding.

### Usage and Dosage Recommendations

For optimal remineralization, add Natural Minerals Complex – 11 to purified or RO water at a ratio appropriate for desired mineral levels:

- **Packaged Water Production:** Typically, 1 mL per liter of water achieves a well-balanced mineral profile suitable for consumer-grade bottled water.

### Certifications and Compliance

- **FSSAI Approved:** Certified for food and beverage use as per FSSAI.
- **Non-GMO:** Free from genetically modified ingredients.
- **Allergen-Free:** Naturally free from gluten, dairy, soy, and other common allergens.
- **No Artificial Additives:** Contains no artificial colors, flavors, or preservatives.

### Summary

Natural Minerals Complex – 11 is a versatile mineral solution for enriching water with essential nutrients, creating an alkaline, mineral-rich product that aligns with current health and sustainability trends. Tailored for the packaged water industry, it allows brands to enhance their product offerings and stand out in a competitive market. Through sustainable sourcing and easy application, Natural Minerals Complex – 11 supports businesses in providing premium, health-focused water solutions.

Natural Minerals Complex – 11 is a valuable product for the packaged water industry, focusing on its health benefits, sustainability, and ease of integration into existing processes.

#### Corporate Address

WZ-114, 2nd Floor, Meenakshi Garden, Near Subhash Nagar Metro Station, New Delhi-18

#### Manufacturing Address

Haridwar, Uttarakhand
