

Natural Minerals Complex-22

Low Sodium, Full Spectrum of Essential Minerals

Specification Sheet

Product Overview

Natural Mineral Complex – 22 is a meticulously formulated blend designed to deliver a complete spectrum of minerals essential for human health, with a low sodium profile. Derived from the renowned Great Salt Lake in Utah, USA, this unique mineral complex is processed to provide optimal bioavailability, supporting hydration, health, and well-being. This natural mineral blend is ideal for enhancing the mineral content of water in the packaged water industry and other beverage applications,

Key Features

- **Complete Mineral Profile:** Contains a wide range of macro and micro nutrients, including essential trace minerals that support vital bodily functions.
- **Low Sodium:** Engineered for consumers seeking mineral-rich water without the high sodium content, allowing for broader market appeal.
- **High Bioavailability:** Carefully processed to maximize the absorption of minerals, ensuring that the body effectively utilizes each nutrient.
- **Derived from Natural Sources:** Extracted from desalinated Great Salt Lake water, capturing a naturally balanced mineral composition.

Nutritional Information (Approx. Value)

Nutrients	Per 100 ML	Per 1 mL
Chloride	6180 mg	61.80 mg
Magnesium	2226 mg	22.66 mg
Sulphate	463.50 mg	4.64 mg
Sodium	31.12 mg	0.31 mg
Potassium	6.386 mg	0.06 mg
Total Fat	0.00 g	0.00 g
Dietary Fiber	0.00 g	0.00 g
Carbohydrate	0.00 g	0.00 g
Added Sugar	0.00 g	0.00 g
Total Sugar	0.00 g	0.00 g
Protein	0.00 g	0.00 g
Energy	0.00 kcal	0.00 kcal
Saturated Fat	0.00 g	0.00 g
Trans Fat	0.00 g	0.00 g
Cholesterol	0.00 g	0.00 g

Natural Minerals Complex-22 is not a drug. No approved therapeutic Claims.

Primary Application

1. **Packaged Water Industry:** Natural Mineral Complex – 22 allows you to transform purified or RO (Reverse Osmosis) water into an enriched, mineralized product. Instead of offering standard RO water, elevate your water offerings by adding life-giving minerals with our premium complex. The natural minerals not only enhance taste but also add essential nutrients for health-conscious consumers.

Composition - Natural Mineral Complex – 22 contains a full spectrum of naturally occurring elements, including major minerals such as magnesium, potassium, and calcium, as well as trace minerals like zinc, boron, and selenium. The unique composition reflects the naturally balanced mineral profile found in the Great Salt Lake, delivering broad-spectrum mineral support.

Physical Properties

- **Form:** Liquid concentrate
- **Color:** Clear to slightly hazy
- **Taste:** Mild, mineral-rich taste that enhances the flavor profile of water and beverages
- **pH:** Naturally alkaline (pH level may vary slightly depending on concentration)
- **Solubility:** Fully soluble in water, with no sedimentation

Available Packaging Options

Natural Mineral Complex – 22 is available in various bulk packaging formats, designed to suit the needs of manufacturers in the beverage and health supplement industries. Bulk options include:

- 20-liter and 50-liter drums
- 1000-liter IBC totes
- Custom packaging options upon request

Source and Sustainability

Sourced from the Great Salt Lake, Utah, USA, Natural Mineral Complex – 22 is derived from an inland sea rich in diverse minerals. Through a proprietary desalination and extraction process, the complex is refined to remove excess sodium, preserving a full spectrum of essential minerals. This eco-friendly sourcing method aligns with sustainable practices, offering a low-carbon alternative to bottled mineral water, which reduces transportation emissions and packaging waste.

Usage and Dosage Recommendations

For optimal results, Natural Mineral Complex – 22 can be diluted into purified water at varying concentrations depending on the desired mineral content. Typical dosing guidelines for water remineralization:

- Packaged Water: - 1 mL per liter of water to achieve ideal mineral concentration.

Regulatory and Quality Compliance

- **FSSAI Approved:** Certified for use in food and beverages as per FSSAI standards.
- **Non-GMO:** Free from genetically modified organisms, aligning with clean-label trends.
- **Allergen-Free:** Naturally free from common allergens, including gluten, dairy, and soy.
- **No Additives or Preservatives:** Ensures a pure, natural mineral source without artificial ingredients.

Summary

Natural Mineral Complex – 22 is a premium mineral solution for enhancing water with a full spectrum of essential minerals and low sodium content. Designed for the packaged water and functional beverage industries, it is an ideal choice for companies seeking to offer health-enhancing, mineral-rich water products. With its high bioavailability, balanced mineral composition, and eco-friendly source, Natural Mineral Complex – 22 meets the demands of today's health-conscious and environmentally aware consumers.
