

## Natural Minerals Complex-33

### Low Sodium, Full Spectrum of Essential Minerals

#### Specification Sheet

#### Product Overview

Natural Mineral Complex – 33 is a scientifically formulated mineral concentrate designed to provide a complete spectrum of essential minerals for the human body. Derived from our flagship Natural Mineral Complex 110, this product offers a simple, efficient, and cost-effective solution to enrich water with a diverse mineral profile, perfect for the hospitality industry. By adding Natural Minerals Complex – 33, you can transform plain water into a mineral-rich, health-enhancing beverage that appeals to health-conscious consumers.

#### Key Features

- **Complete Mineral Profile:** Delivers a full range of macro and micro nutrients to support hydration, health, and vitality.
- **Low Sodium Content:** Ideal for low-sodium dietary needs while providing essential minerals.
- **High Bioavailability:** Optimized formulation for maximum absorption and utilization of minerals by the body.
- **Source to Glass Concept:** Allows on-site mineralized water creation, aligning with sustainability and eco-friendly practices.

#### Nutritional Information (Approx. Value)

Nutrients	Per 100 ML	Per 1 mL
Chloride	9270 mg	92.70 mg
Magnesium	3399 mg	33.99 mg
Sulphate	695.25 mg	6.95 mg
Sodium	46.69 mg	0.47 mg
Potassium	9.579 mg	0.10 mg
Total Fat	0.00 g	0.00 g
Dietary Fiber	0.00 g	0.00 g
Carbohydrate	0.00 g	0.00 g
Added Sugar	0.00 g	0.00 g
Total Sugar	0.00 g	0.00 g
Protein	0.00 g	0.00 g
Energy	0.00 kcal	0.00 kcal
Saturated Fat	0.00 g	0.00 g
Trans Fat	0.00 g	0.00 g
Cholesterol	0.00 g	0.00 g

**Natural Minerals Complex-33 is not a drug. No approved therapeutic Claims.**

#### Primary Application

1. **Hospitality Industry:** With our “Source to Glass” approach, hospitality clients can create premium, mineral-enriched water on-site for guests. This concept enables hotels, restaurants, and resorts to offer their patrons a refreshing, mineral-rich drinking experience that supports wellness. By enhancing their water offerings with Natural Mineral Complex – 33, businesses can introduce a health-focused option that enhances customer satisfaction and adds value to their brand.

**Composition -** Natural Mineral Complex – 33 is derived from desalinated inland seawater from the Great Salt Lake in Utah, USA. The formulation contains the full spectrum of naturally occurring elements, including essential trace and ultra-trace minerals, providing a balanced source of nutrients essential for hydration, metabolic support, and overall health.

#### Physical Properties

- **Form:** Liquid concentrate
- **Color:** Clear to slightly opaque
- **Taste:** Smooth, mineral-enhanced taste that complements water and other beverages
- **pH:** Naturally alkaline, supporting a balanced, alkaline beverage profile
- **Solubility:** Fully water-soluble, ensuring even distribution and no sediment

## Available Packaging Options

Natural Mineral Complex – 33 is available in various bulk packaging formats to cater to diverse industry needs:

- 20-liter and 50-liter drums for moderate usage
- 1000-liter IBC totes for high-volume applications
- Custom packaging upon request

### Source and Sustainability

Natural Mineral Complex – 33 is sourced from the Great Salt Lake, an ecologically sustainable inland sea rich in essential minerals. Through a proprietary desalination process, the complex is carefully extracted to remove excess sodium while retaining its broad mineral spectrum. This sourcing process minimizes environmental impact, aligns with sustainable practices, and reduces carbon emissions compared to traditional bottled mineral water transportation.

## Economic and Operational Benefits for the Hospitality Industry

- **Revenue Growth:** By offering premium mineral water, hospitality venues can provide an added-value service, potentially boosting revenue with a nominal cost increase.
- **On-Site Solution:** Eliminates the need for bottled mineral water deliveries, reducing costs, storage requirements, and waste.
- **Eco-Friendly:** Aligns with sustainable hospitality practices by reducing carbon footprint and minimizing plastic waste through on-site mineral water production.

### Usage and Dosage Recommendations

For optimal results, Natural Mineral Complex – 33 can be added to purified or RO water at various concentrations based on the desired mineral content:

- **Hospitality Industry Use:** Typically, just 1 mL per liter of water achieves a balanced mineral profile with great taste, enhancing the drinking experience for guests.

### Regulatory and Quality Compliance

- **FSSAI Certified:** Approved for safe use in food and beverages by FSSAI.
- **Non-GMO:** Free from genetically modified ingredients, aligning with clean-label demands.
- **Allergen-Free:** Naturally free from common allergens, including gluten, dairy, and soy.
- **No Artificial Additives or preservatives:** Pure, natural mineral formulation without artificial colors, flavors, or preservatives.

### Summary

Natural Mineral Complex – 33 is a premium mineral solution for transforming plain water into a nourishing, alkaline, and mineral-rich beverage. Ideal for the hospitality industry and beyond, it provides a clean, eco-friendly way to elevate water quality on-site while supporting sustainable practices. By enhancing customer offerings with Natural Mineral Complex – 33, businesses can deliver health-boosting, mineral-enhanced water that aligns with modern consumer preferences and environmental goals.
